

WELLBEING,
DESIGNED
AND DELIVERED

CONCEPTS | CUSTOM DESIGN | INSTALLATION

Saint-Gobain brings to you a bouquet of its home solutions under MyHome – a service that helps you with ideas for your home, customises them to suit your preferences and also has them installed by professional installers.

Be it a designer ceiling for your living room to a very functional glass shower cubicle for your bathroom. Or, smooth sliding glass wardrobe shutters for your bedroom to classy glass kitchen shutters. From smart roofing solutions to energy efficient windows. Innovative wall coverings for your favourite wall to must-have glass writing boards for your study, and not to forget, robust tile fixing and waterproofing interventions across your home. MyHome offers you all these and more.

In short, all that you get with Myhome is
pure Wellbeing, Designed and Delivered.

BECAUSE LIFE NEEDS
A FRONT-ROW SEAT

STATE-OF-THE-ART WINDOW

Frame

01

Seamless welded joints that have unmatched strength and modern, groove-free finish

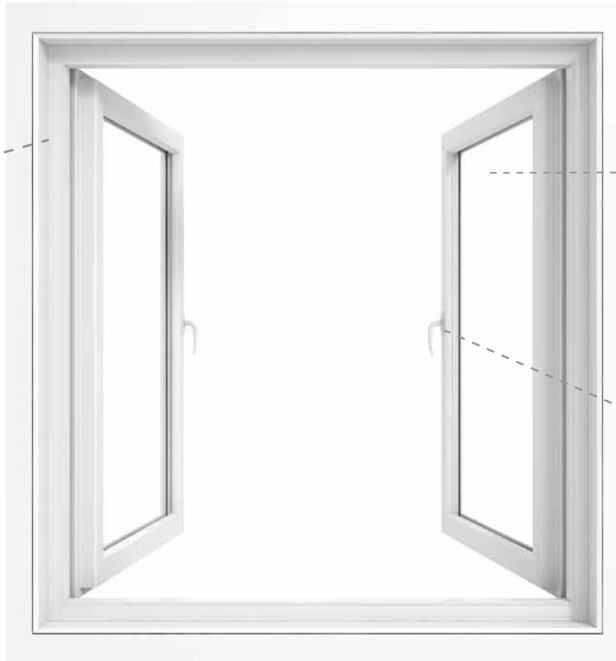

Profile made from specially-formulated tropical uPVC blend with high UV resistance thereby creating ultra-white profiles which stay white forever without yellowing

3KPA

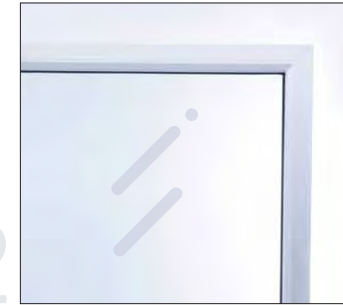

Best-in-Class window design delivers highest structural strength, tested for wind pressures upto 3KPA

Wood finish choices give the window a natural look

02

Glass

Highest-performance coated glass provides energy-efficiency and aesthetics

03

Hardware

7x

Reinforcement that is 7 times superior against rusting than conventional steel reinforcement against rusting, making the window exceptionally durable

Highly reliable hardware that lasts long as it is tested under the most stringent conditions for mechanical performance and corrosion resistance

PREMIUM RANGE CRAFTED WITH PRECISION

Premium range of hardware & accessories crafted with precision

Functionality

Self-closing hinges are designed to make open door configurations convenient to use. Sliding door options are best suitable for bathrooms with space constraint.

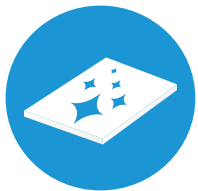

Quality

The seals are made of acrylic to provide flexibility during use and are as transparent as glass.

Vibration-Free

These fittings complement the opening/ closing/sliding mechanism of doors, making them vibration-free.

Durability

With a specialised chrome plating, these fittings showcase high reflectivity and unmatched aesthetics.
